

Bhavani Engineering

Mfg. of :

Single Screws & Barrels

Parallel & Conical Twin Screws & Barrels

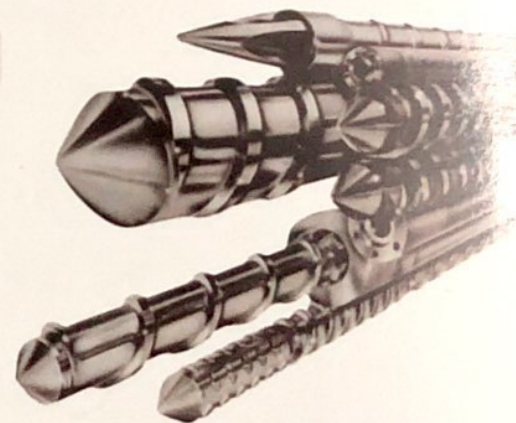

www.bhavaniengineering.co.in

● Injection Moulding Screw & Barrel

Injection Moulding Screw is fabricated using the most advanced and technologically upbeat parts & components. Clients may contact us for availing vertical & horizontal molding machines & wire striping machines, which are controlled by Electrical PLC Panel. Clients appreciate these machines for their international standard and flawless performanc.

● Single Screw Extrusion Screw & Barrel

We are the renowned organization engaged in manufacturing and supplying of a broad range of premium quality Single Screw Barrel, which is widely used for extrusion plants. These all products are manufactured using latest technologies & machines and raw material sourced from reputed and trusted venders in the market. Available in various sizes and specifications, we offer these products at affo

Features

- Accurate dimension
- Resistance to corrosion
- High durability

Parallel Twin Screw Barrel

Backed by the vast experience of the industry, we are involved in the manufacturing and supplying Twin Screw Barrel in different sizes and length. The product is suitable for heat as well as shear sensitive material. Our product range is well accepted by our clients for high precision and accuracy.

Features

- Accurate dimension
- Resistance to corrosion
- Maximum durability

Conical Twin Screw Barrel

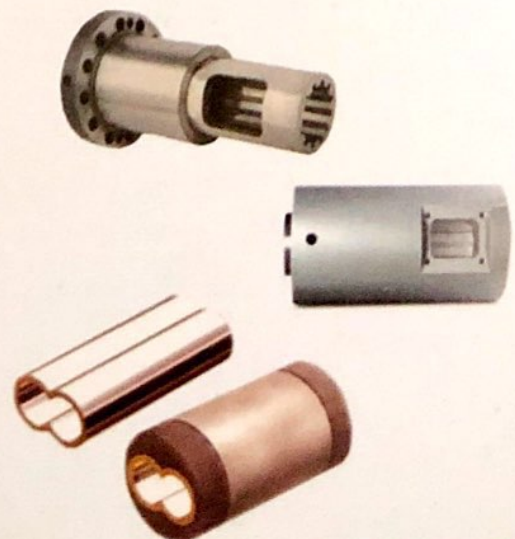

We are considered as one of the prominent manufacturer & supplier of Conical Screw Barrel. These conical screw barrel are used in PVC Pipe making machinery (conical twin screw extruder)

Features

- Long Durability
- Corrosion Residency
- Competitive Price

Groove Feed Sleeve Screw Barrel

The grooved feed barrel is used for achieving high shear and better transportation of material. As Co-efficient of friction between granules and screw and barrel should be higher to get proper melting of the material, It's imperative to have grooved feed in the barrel for processing of polymers of Olefin group. Size-30 mm to 150 mm.

We are a trusted and premium manufacturer and supplier of a comprehensive range of screw barrels. All products offered by us is produced using high quality raw material and latest technology which help us to provide superior standard products at competitive price in the market. With every day passing our company value and image increasing due to our quality of the products and better customer services. The products we offer are widely appreciated for precise dimensions, durability and cost effectiveness.

Our company is established in the year 2008 under dynamic leadership and guidance of our mentor Mr. Kamlesh Patel who has vast experience in this field. Today there are a lot of companies in the market providing same products but few of them providing quality products. We are incorporated with a purpose to provide world best quality products which provide maximum satisfaction to our customers. We are located at most industrial developed area vatva in Ahmedabad.
